**STRICTLY PRIVATE AND CONFIDENTIAL**

Mr Peter Shullot  
483 Green Lanes  
London N13 4BS  
England

Dear Mr Shullot,

I thank you for your letter dated 6<sup>th</sup> July and for your support against further taxes on air travel under the guise of the environment. As you rightly point out aviation accounts for less than 2% of worldwide greenhouse gas emissions and is therefore neither the cause of, nor the solution to, climate change or global warming.

I am afraid we don't have any photos for your teenage son, but I enclose a copy of our current inflight brochure which has a suitably brushed up version of my mug shot! (page 7)

Best wishes

Michael O'Leary
