10 July 2007

Dear Mr Shullot

Volvo file reference 370667

Thank you for letter dated 6 July 2007. I very much enjoyed reading your point of view.

I can confirm that our core values are Safety, Quality and the Environment and we will continue to make cars that respect all three of these key factors. I can assure you that we have no intention of sacrificing safety into order to make a more environmentally friendly car as all 3 values are equally important. We will however continue to work to find a balance.

I trust that this letter has allayed your fears and that you will continue to enjoy many miles of Volvo motoring.

Yours sincerely

Stuart Kerr
Managing Director
